SchoolMessenger is a rapid notification system used to contact families in Gwinnett County Public Schools (GCPS) via telephone messages, text messages, and email messages. The district will use the system to communicate information related to districtwide events, including key school dates and school closings due to inclement weather. Schools may use the system to communicate information related to school events as well as automated attendance messages. Parents and guardians have the ability to customize messaging preferences. They can do this by accessing SchoolMessenger through the Parent Portal or using the SchoolMessenger website or app. Learn more with these frequently asked questions.
