DragonFly Max is an online platform that will allow our **parents (not athletes)** to conveniently complete all documents electronically from your home computer or smart phone. Additionally, the DragonFly system will give our coaches access to their athletes' physicals on their phones, allowing them to have the appropriate information at their fingertips in case of an emergency. Finally, you and your athlete will keep your completed physical form as well as having access to the above forms electronically to print from home, if you need any for a camp or clinic where a physical or other documentation is required.

Parents will go to DragonFly Max.com to create your athlete's account and complete all required forms.

Step by step instructions are attached and provided online on our Athletic web page. If you have any questions, contact myself or Laura Dunnigan at 678-714- 5909.

Sincerely,

Dr. Steven Hardegree
