

November 14, 2018

Dear Meadowcreek Cluster Families:

The new Health Science High School is opening in August 2019 as an innovative and themed high school. As a passionate educator, I am honored and excited to lead Health Science HS as this school will provide a non-traditional, themed high school choice for Meadowcreek cluster students. Students currently attending Meadowcreek High School and 8<sup>th</sup> grade students at Lilburn Middle School and Radloff Middle School may choose to attend either Meadowcreek HS or the new Health Science High School. Bus transportation will be provided to both schools.

The Health Science HS will be focused on “Learning Well.” Our health science focus was developed with students and their future in mind. Health science job opportunities are growing, and students will be able to earn industry certification, preparing them for the workplace or continued postsecondary experiences. The four primary health science areas will provide a focus for students’ studies in Patient Care, Allied Health, Health Informatics, and Advanced Medicine. These focus areas will give students the foundation to pursue a host of careers, such as emergency responder, radiology tech, physician, medical billing clerk, medical researcher, nurse, and many more. Our goal is to extend learning in the health science areas and to provide students with experiences and knowledge that will help support them as they transition to college and career.

Even if you are not sure about pursuing a career in health science, Health Science HS can still be an excellent fit for you. Students who attend this themed school will learn Gwinnett’s AKS curriculum and will be prepared for any college major. Additionally, students will be able to participate in intramural sports, and a focus on student wellness and exercise options will be an integral part of the school experience. Also important will be the dance and theatre program, band, orchestra, academic teams, clubs, service organizations, and other student leadership opportunities similar to those found at a traditional high school.

As we embark on this incredible journey, I hope you will join us. Be a part of something special and learn well with us!

Sincerely,

*Nicole Mosley*
