

# It's not too late to register!

## Learning well starts with you... and McClure Health Science High School!

As a high school student in the Meadowcreek Cluster, you have a unique opportunity to be a part of something really special—the launch of the new McClure Health Science High School! Through internships, hands-on learning, and certification opportunities, students will get a jump on future careers while still in high school. Our curriculum has been developed with students and their future in mind.

### What makes McClure Health Science unique?

- A rigorous and engaging health science curriculum
  - Collaborative and connected classes
  - Active, hands-on learning
  - Innovative scheduling
  - Health science internships
- A focus on critical thinking, collaboration, authentic learning, problem-solving, and health science, ensuring graduates are ready for college and career
- Options for students preparing for life after high school
  - Advanced Placement (AP) courses
  - Dual Enrollment options
  - Research classes, internships, and capstone projects
  - Industry certifications

### Where is the school located?

McClure Health Science High School is located at 3921 Club Drive in Duluth.

### Is transportation provided?

Yes, Gwinnett County school buses will transport students to McClure Health Science High School just as they do students who attend Meadowcreek High School.

### Who can attend? Are there any special criteria?

The school serves students in grades 9–12 who live in the Meadowcreek Cluster. There are no other attendance requirements.

### A smaller school experience with unique extracurricular activities

While there are no GHSA sports/activities, our school will provide students opportunities to be active through student associations and service organizations such as Relay For Life, Gwinnett Student Leadership Team, HOSA, HoPe Club, and student council. You also will find clubs, as well as dance and theatre opportunities. Intramurals and a focus on personal wellness and fitness will help ensure that our students not only learn well, but live well.

### Is the Health Science High School a good fit for me?

This school was designed for students who:

- Are passionate about health, science, and medicine.
- Desire to help others and improve their community.
- Want their school experience to look different.

### What can I do with what I learn at McClure?

- Our **Clinical Care** program is perfect for students interested in learning more about emergency medicine and trauma, exercise physiology, and patient care.
- Or if you are interested in becoming a medical office assistant or want to manage a medical office, we have our **Medical Support** program.
- And, the **Health Informatics and Technology** program links information technology, communications and healthcare.

### Work toward a dual diploma

McClure students can begin a two-year college degree while working on a high school diploma, providing them a competitive edge for college admission and saving thousands of dollars in college tuition.

### Certifications and Learning Extensions

1. Certified Nursing Assistant, medical office assistant, and Emergency Medical Responder certifications available in pathways
2. Internships, work-based learning opportunities, and hands-on seminars in the student experience. This includes clinical hours for third-course pathway students.
