

## Gwinnett County Public School System's Parent Mentors

Serving Families of Students Who Receive Special Education Services

Georgia  
Parent Mentor  
Partnership

**Jackie McNair**

**Dawn Albanese**

Gwinnett County Public School System's Parent Mentors are available to provide parents of students with disabilities information, guidance, and resources to support students in their homes, schools and communities.

We each have a child who receives special education services in the Gwinnett County Public School System. In an effort to create greater success and better outcomes for students with disabilities, we work to build a bridge between parents, administrators, and teachers. We are here to help find solutions and support collaboration with your child's school in ways that will promote positive outcomes. Parent Mentors also help guide parents in ways to connect with their communities.

During the school year, we offer monthly parent meetings and other informational sessions about topics important to students with disabilities and their families. We collaborate with school administrators and teachers, supporting parents and staff in their efforts to help students plan for and achieve their educational and post-secondary goals.

We can provide information about *transition planning, Medicaid waivers, IEP, support groups, disability information, community resources, and other information related to special education.*

Please contact us by phone or email, if we can be of service to you.
