

We cannot WAIT to meet our new 6th graders!

Dear Rising Sixth Grade Parents,

We are incredibly excited to welcome your children to Five Forks Middle School! Sixth grade is a formative year for your children because it inducts students into middle school. Since research has shown that a student's high school success can be attributed to their performance in middle school, our teachers will provide rigorous and engaging classroom environments where students will be challenged to excel. Our goal is to help the students reach their highest academic potential while exposing them to meaningful learning experiences.

Although you may experience some anxiety about this transition to middle school, let me ease your concerns. The teachers at our feeder schools are doing an outstanding job preparing your children for middle school, and let me assure you - we are getting ready for them as well! While the big jump to middle school might be a little "scary" for you and your child, it is an exciting time for us to welcome the wonderful children we will be getting from our fabulous elementary schools.

We have been planning for your students for quite some time, and our main priority is to ensure that they have a smooth transition to Five Forks Middle School. I encourage you to regularly look at our school website and sign up for our social media sites: Facebook & Instagram. These websites will give you a sneak peek into what this year's sixth graders are currently working on in their classes. Feel free to scan the QR Code below that will take you directly to the Rising 6th Grade Information on our school website.

FFMS is an exceptional school. Our faculty is dedicated to working with parents and students to continue their success, which is a hard and fast tradition within the Brookwood Cluster.

We hope that we can "Count you in!" here at Five Forks!

Dr. Andrew Whatley
Sixth Grade Assistant Principal
