

# Prescription Resources

**The resources listed directly below assist in connecting people with Patient Assistance Programs (PAP).**

Some Patient Assistance Programs will help those who have insurance if they meet program hardship requirements or their medication is not covered by their insurance—depends on a variety of factors. Of the various PAPs, each program has its own rules and has minimum requirements. For the majority of the programs, the individual applying must be a U.S. citizen or legal resident, have no prescription insurance coverage and meet program income guidelines.

## Needy Meds

- Have active insurance coverage that includes coverage for pharmaceutical products

**Please be aware that there are high numbers of companies that advertise free or reduced-cost prescriptions online. Thoroughly research any company to determine if they are a legitimate and reputable business before you decide to access their services. In addition, please be careful of any company that expects payment for their help in linking you to assistance programs.**
