

Milestones Assessments

Elementary School

ES REGISTRATION DEADLINE: March 26

Families of Digital Learning students are invited to register their student for upcoming assessments, which will be administered at the school. Please review this information about the Georgia Milestones Assessments and how we use results, the registration process, and frequently asked questions.

About the Georgia Milestones Assessments

In GPCS, schools administer the Georgia Milestones End of Grade Assessments to **students in grades 3-5** to measure achievement in Reading, Language, Mathematics, and Science (Grade 5 only). Testing will be administered over three to five days, depending on the grade level. The testing schedule is determined by your child's school.

While the tests measure each individual student's mastery of the curriculum during the school year, they also help teachers and schools better understand the impact COVID-19 has had on learning and identify what resources and supports our students will need in the coming school year.

This assessment is not mandatory for Digital Learning students. However, the results will help teachers improve instruction and provide support for your student in the 2021-22 school year.

How to register for the test

Please let us know that your student will participate in Milestones testing by completing your school's registration no later than **March 26**.

Please refer to your school's registration information for details on the testing schedule.

Why register?

Registration is required so that your child's school can prepare a safe and successful assessment for all students— those learning in person and those participating in Digital Learning. Only Digital Learning students who have pre-registered will be able to take the assessment.

Transportation available

Digital Learning students who have registered for the assessment may choose to ride the bus to and from school on test days. Please contact your local school if you are unsure which bus your student will take.

See the other side for frequently asked questions about in-school assessments this spring.

This flyer reflects plans as of March 5, 2021. Any changes will be communicated to families.

Frequently Asked Questions— In-school Assessments

What safety procedures will schools follow on test days?

Keeping students and staff safe and healthy is our key concern. Here are a few of the protective measures in place in our schools to minimize the spread of illness:

- Wearing a cloth face covering or a mask is required for students and staff in GCPS facilities and on buses. (Accommodations will be made for students unable to wear a mask for documented health reasons.)
- Schools will arrange seating to maximize space between students.
- Rooms, furniture, and high-touch surfaces and objects will be cleaned frequently.
- Ventilation systems will be monitored for proper operation and appropriate circulation of outdoor air.
- Buses will be cleaned after morning and afternoon routes.

What should my student bring on test days?

- **A mask or cloth face covering.** Masks should cover both the nose and mouth and secure under the chin. They also should fit securely against both sides of the face. Face shields may be worn in addition to masks, but not in place of masks.
- **Pencils.** Students may not share materials or supplies. Each student should bring several sharpened pencils.
- **A water bottle.** Students will have access to water during the day, but should bring their own container.
- **Hand sanitizer.** Frequent hand-washing is encouraged. We also recommend bringing hand sanitizer from home as well.
- **Device for digital learning.** Students who are being transported to and from school by bus may bring their personal or school-issued device to continue digital instruction as these students will remain at school until dismissal.

Are students screened for symptoms?

You should screen your student for symptoms at home, before coming to school or leaving for the bus stop. This includes:

- Taking temperature before going to school.
- Checking for respiratory symptoms such as coughing and shortness of breath.

Students ***must*** stay home if:

- They are sick (fever, congestion or runny nose, muscle pain and fatigue, cough, new loss of taste or smell, difficulty breathing, headache, sore throat, nausea or vomiting, chills, or diarrhea).
- They have tested positive for COVID-19 within the last 14 days.
- They are awaiting test results.
- They have been in close contact with a person with COVID-19 within the last 14 days.

My student will be taking the bus. Does she have to stay at school until the end of the day?

Digital Learning students being transported to and from school by bus for the assessment will remain at school until the regularly scheduled dismissal time. Once testing is done for the day, students will continue instruction. They should bring their personal or school-issued device if possible.

If my student participates, can I drop off and pick up my child?

Yes, families may transport their child to and from school for testing. Ask your school about the schedule for test days. Note that both In-Person students and Digital Learning students will return to instruction after testing is done for the day. Due to travel time, your student may miss some instruction in the digital classroom. Your child's teacher can answer questions about the instructional schedule.

Will Digital Learning students who do not participate have school on test days?

Yes, teachers will continue instruction for students in the Digital Learning format.
