

Save the date! February 19, 2019

How do you equip your child to thrive in a technology-driven world without risking their safety and reputation?

For Parents:

You will leave with a better understanding of the digital world and a list of resources for parents and caregivers. A panel of experts will share their insight on the latest digital trends in K - 12th students; practical impact of these digital trends; what to watch for; tips, tools, and apps for parenting; and necessary parenting conversations.

For Students:

K - 2nd: These young friends will watch a movie in another room.

3rd - 5th: High school leaders and Coach Jarvis will discuss how students can make smart choices online and why it's important.

Middle and High School students are encouraged to attend with their parents to hear the panel of experts and the resources shared.

(No child-care provided - preschoolers will stay with parents)

February 19, 2019

6:30 - 8:00 PM

Pre-Registration information will be sent early in 2019 for you to sign up!
