

Gwinnett County Public Schools Summer Enrichment + Acceleration (SEA) Program

Dear Parents,

This summer's learning experience for Gwinnett elementary and middle school students has been redesigned to support our students who may have experienced learning loss due to the pandemic. The goal is to help students get a head start on next year's learning.

GCPS' Summer Enrichment + Acceleration activities will focus on accelerating and expanding on student learning for the current grade and previewing what students will learn at the next grade level. Students will work in flexible learning groups and will use a range of learning strategies as part of their summer learning. And, this year's summer program includes enrichment opportunities outside the core subject areas (Language Arts, Mathematics, Science, and Social Studies). Students will participate in fun and engaging activities and learning typically offered in Specials and Connections courses.

Class sizes will be small and health and safety practices (masks, distancing, etc.) will remain in effect during this summer learning time. Breakfast and lunch will be provided. Students will attend the SEA program from 8 a.m. to 2 p.m. during the three-week session (June 14-July 2). **This three-week program is FREE for all K-8 students. Breakfast and lunch will be provided to all students each day at no cost to the student.**

Students registered before May 10 are eligible for free transportation!

Summer Enrichment + Acceleration will be held June 14—July 2, 2021.

This summer learning opportunity will be held at K. E. Taylor Elementary School (Rising K – Rising 4th)
Creekland Middle School (Rising 6th)

Drop off Time: 7:45 am Start Time: 8:00 am End Time: 2:00 pm

To register your child go to: <https://forms.office.com/r/ztP4aCPkwx> to complete the registration form. The registration link is available on the Taylor Elementary Website (www.gcpsk12.org/taylores) and this week's Eagle Eye Newsletter.

While Summer Enrichment + Acceleration is not a promotion requirement for students who struggled academically, it is strongly recommended. **We encourage you to work with your child and to take advantage of this summer learning opportunity available to all of our K-8 students. If your child does not attend the in-person opportunity, we encourage you to take advantage of the available online lessons.** Your support will help to ensure your child is ready for the next grade level.
