

# Flexible Spending Account (FSA)

Tired of digging through your things, trying to find a receipt from your doctor, healthcare provider or dentist to provide for your Flex Spending Account?

There's an easier way!

If you participate in the Healthcare FSA, download Medcom's Mobile App on your phone.

## How Does It Work?

- Download the app, and sign in for the first time.
- Get a receipt whenever you pay at the doctor or dentist – and snap a photo of the receipt right then and there- it uploads straight to the app!
- Expenses can be set up for some recurring transactions (orthodontia expenses, for example) after the first receipt provided to eliminate recurring requests for receipts during the year.
- Plus, Federal and State taxes are not taken on the amount you contribute to your FSA which means more money for you!
- Available at no cost through
