WE WISH YOU A SAFE AND HAPPY NEW YEAR!

Be Prepared for Winter Weather on School Days

- GCPS schools and facilities may close in the event of hazardous weather or other emergencies, with full-day cancellations typically announced by 6 a.m.
- When bad weather causes school to be cancelled, dismissed early, or open with a delayed start, the district makes public announcements via local TV, the website, GCPS TV, social media, and SchoolMessenger.
- GCPS announces when schools will be closed, but not when school will be in session as scheduled.

Masks are required at school and on the bus

Take Note

Martin Luther King Jr., Day

The United States celebrates Martin Luther King, Jr., Day as a holiday on January 15. This day honors the achievements of Dr. King, who advocated for the end of racial segregation through nonviolent means.

STEM Challenge Project:
Popsicle Stick Bridge Contest

This season our STEM challenge will be to create the strongest bridge using materials described by Ms. Riddick. The registration fee of $3 can be paid online. The project is due January 21, 2021. Judging will take place on January 25th via live stream.

Riddick’s Roundtable

Happy New Year Rosebud Families!!!

I am so excited to be back with your children. I really missed them over the break. During the break, we all heard about the rise in cases of COVID. To keep your children safe, we will no longer be accepting outside food of any kind. We have taken the weeks of January 3rd and January 10th to review safety protocols. I have also asked teachers to review their current seating chart and make changes if needed. The cafeteria will have limited student groups, and classes will rotate between eating in the classroom and eating in the cafeteria. Our goal is to provide a safe environment for students and staff.

We have also updated our device procedures. Students in all grades will start bringing home a device daily. We want to make this part of their everyday procedures. If you do not want your student to bring home a device, please contact your child’s teacher. Parents who have not filled out the document for students to take home a device, will receive an additional copy over the next week. Please take time to fill out the form so we have one on record for every student.

Tuesday, January 25, will be a Digital Learning Day for all students, with meal delivery occurring at bus stops between 10:45 A.M. and 12:00 P.M.

In more exciting news, Monday, January 24, will be our 100th Day of School! We have some engaging learning opportunities lined up for the entire week to help us celebrate.

All students will also have the opportunity to participate in the school wide STEM challenge. This semester, the STEM challenge is bridge building. Students can register their project for $3.00 (also available on MyPaymentsPlus.com). Once they register, they will receive a bag of 200 popsicle sticks. The goal is to create a bridge with the popsicle sticks and Elmer’s wood glue or Elmer’s white glue that will hold the most weight using the least sticks. Additional information can be found on our website. All projects are due January 21st and will be judged on January 25th. We are looking forward to seeing the creative designs of your students.

Lastly, our FABULOUS PTA will be hosting a Health Fair. We will have vendors from all over the county providing services to our community. The fair will be accompanied by student performances. The health fair will be held on Saturday, January 29th. Flyers will be sent home the week of January 24th. We are looking forward to seeing everyone there.
