GCPS Seeks Community Input...

We need your input on “What mitigation strategies, practices, or procedures should we consider as we adjust to living with COVID-19?”. To gather your feedback, Gwinnett County Public Schools is using a tool called ThoughtExchange. All of our voices matter, so your participation is crucial and valued!

Dear Parents and/or Guardians,

We all share a common goal for our children to be safe and protected from all things harmful. Related to that goal, school counselors are required to present annual personal safety lessons designed to prevent sexual abuse. The Think First & Stay Safe™ program is a research-based program that teaches specific personal safety education by way of interactive classroom lessons, classroom posters, role playing and corresponding activities. Think First & Stay Safe™ enables students to take an active and necessary role in protecting themselves from abuse and exploitation. A committee of professional school counselors reviewed the program and selected components that were developmentally appropriate for elementary students and developed lessons around those concepts.

Due to the importance of this topic, we want you to know when and how you may preview the materials and when the counselors will be presenting this information to your child’s class. Please contact your child’s counselor, to schedule a preview or if you have any questions or concerns. During the months of LATE FEBRUARY – APRIL 2022 our school counselors will offer the sexual abuse prevention and safety lessons to all K-5 students.

You can also learn more about the detailed lesson plans and research behind this program at www.childluresprevention.com. Please be aware that more information is provided on the website than is actually used in Gwinnett County. The plan for Gwinnett includes: the key concepts taught at all grade levels; each grade reviews what was learned in the previous grade(s) and then learns additional lures or tricks. Specifics are provided below:

<table>
<thead>
<tr>
<th>Key Concepts</th>
<th>Your instincts help keep you safe.</th>
<th>People are like the weather. Most are safe, but they can change.</th>
<th>Lures are tricks used to get children away from safe adults and safe place.</th>
<th>Laws help protect children and there are adults who can help you.</th>

If you prefer that your child not participate in the sexual abuse and safety prevention lessons, please write and sign a note indicating your preferences and send it to your child’s teacher or school counselor. As always, counselors are available to discuss any concerns you might have. Unless written documentation is received, your child will participate in the sexual abuse prevention and safety lessons.

Sincerely,

Valerie W. Robinett
