

BROOKWOOD PARTNERSHIP

Brookwood High School proudly serves approximately 3,600 students while continuously pursuing a tradition of excellence in which we emphasize the critical thinking skills students need to become productive citizens and lifelong learners. A vital component of this is working with business leaders in our community who are willing to support our students and our mission. As a partner, we pursue these main goals to 1) encourage students to achieve academic excellence, 2) support teachers and staff, 3) create opportunities and learning experiences for students and staff, and 4) recognize and support our community and business partners. We hope that you would consider joining us in our efforts.
